The National Center for Food Safety and Technology is funded, in part, by a Cooperative Agreement with the Center for Food Safety and Applied Nutrition of the U.S. Food and Drug Administration, Department of Health and Human Services.

# TABLE OF CONTENTS

Introduction.....	1
<b>CHEMICAL CONSTITUENTS AND ALLERGENS.....</b>	<b>3</b>
Cleaning and Validation to Prevent Allergen Cross-Contact.....	4
Effects of Processing on Food Allergens.....	12
<b>FOOD DEFENSE.....</b>	<b>19</b>
Thermal Resistance of <i>Yersinia</i> spp. Related to Solids Level, Water Activity and Fat Levels in Foods.....	20
Effect of Dehydrated Storage on the Survival of <i>Y. pseudotuberculosis</i> , <i>Salmonella</i> Enteritidis, and <i>E. coli</i> O157:H7.....	25
Effect of High Pressure Processing on Infectious Agents and Protein-based Toxin.....	33
The Effect of Juice Temperature on <i>Clostridium Botulinum</i> Type A Toxin Activity During the Hot-Filling of Juice Bottles.....	41
Evaluation of Methods for Decontamination of Food Processing Equipment and Facilities Deliberately Contaminated with <i>Bacillus</i> Spores.....	49
Recovery of Biothreat Agents from Food Processing Surfaces.....	64
Thermal Stability of Ricin in Apple and Orange Juices.....	71
Stability of Picrotoxin, Ricin and Abrin in Yogurt.....	79
Thermal Stability of Ricin in Phosphate Buffered Solutions.....	85
<b>FOOD PROCESSING AND PACKAGING.....</b>	<b>87</b>
Microwave Pasteurization of Shell Eggs.....	88
Development of a Model to Estimate UV Light Dose Delivery for Single Tube and Multi-Tube and Multi-Reactors.....	93
High Pressure Synergy for <i>Clostridium botulinum</i> Inactivation.....	97
An Integrated Internet Information Resource (IIR) for Package Integrity and Tamper-Evident Packaging (TEP) .....	103
Framework for Setting and Validation of Sterilization Processes.....	109
Evaluation of a Non-destructive High Voltage Technique for the Detection of Pinholes in Flexible Pouches for Foods.....	113
<b>MICROBIOLOGY.....</b>	<b>123</b>
Comparative Genomic Analysis of <i>Listeria monocytogenes</i> for Survival in Food Processing Environments.....	124
Genetic Factors Regulating <i>Salmonella</i> Stress Response.....	131
Concentration and Separation of Bacteria from Food.....	137
Effects of Processes on Viruses in Foods.....	143
